LFA Soil Surface Assessment (SSA) Data Sheet

Date:..... Observer:……..... Transect.....

Site Name.....

Each mini-transect needs to have it's **location on the L/O transect** (in metres from 0) and its **patch or interpatch type** identified in this row of cells.

	Class Values of Surface Features														
SSA.Indicators.															
Rainsplash Protection (1-5)															
Perennial vegetation cover (1-4)															
Litter cover, origin & incorporation (1-10)															
Cryptogam cover (1-4)															
Crust broken-ness (1-4)															
Erosion type & Severity (1-4)															
Deposited materials (1-4)															
Soil Surface Roughness (1-5)															
Surface resistance to disturbance (5-1)															
Slake test (1-4)															
Surface Texture (1-4)
