**the UNDERPASS  
 MOTEL**

The world was a big place once.  
 Then it became gradually smaller. Small things have edges;  
 they end somewhere.  
 Imagine a place on the edge of the world.  
 The place has a motel.  
 Here, at the edge of the world, hiding things has become  
 a kind of religion.  
 The religion has a cathedral. It's called ... *The Underpass Motel.*
