

Srila Narayana Maharaja

Navidweep, Guarpurnima 2003

“You must do this. Guru never dies. You can see this in Nityananda prabhu – Baladeva prabhu – that Guru never dies. I want that after I leave, our mission should go on; our preaching should be continued.”

“We have established some preaching centers in Birmingham and other places, and I want them to run very well. Regarding Australia, for many years I wanted that some land be purchased in Murwillambah, and that all the Australian devotees help and make that place very ideal. Australia is now undefeated in cricket, and all are attracted. In fact, Australia is a prominent country in so many ways. I am very sorry, however, that up until now we could not do anything there. I therefore request that all the Australian senior devotees, like Vraja-vallabha prabhu, Mahaprabhu prabhu, and Premananda prabhu to help. All of them are very qualified. If they want to do so, we could establish a very good preaching center there. They should be very strong. I have heard that a piece of land has been purchased in Murwillambah, so we should all assist to establish a center there. Please give this message to all there – that I want to see a center there.”
